ARTICLE VII

REVOCATION, RENEWAL AND TRANSFER OF QUALIFYING FARMLAND IN A VAD OR EVAD

- (a) Transfer.
 - (1) Transfers of land in a Voluntary Agricultural District due to death of the landowner, sale, or gift shall not revoke the conservation agreement, if all new landowner(s) affirm the conservation agreement and affirm, on a supplemental application, updated information demonstrating that the enrolled land still qualifies for enrollment under Article VI(a). In the event that there are water or sewer assessments held in abeyance by this Article, and where the new owner(s) fail(s) to agree in writing to accept liability for those assessments when land is withdrawn either voluntarily or involuntarily from the VAD, the conservation agreement shall be revoked. Revocation shall be undertaken pursuant to the provisions of this Article.
 - (2) Transfers of land in an Enhanced Voluntary Agricultural District due to death of the landowner(s), sale, or gift shall not revoke the conservation agreement. The conservation agreement for the Enhanced Voluntary Agricultural District shall be binding upon all successors in interest to the landowner, except for successors in interest resulting from the exercise of rights under a security interest or lien that preceded the conservation agreement.

- (b) Renewal.
 - (1) VAD. Absent noncompliance by the landowner, neither the Advisory Board nor the Board of Commissioners shall fail to renew any conservation agreement for an additional ten years unless this Article or its authorizing legislation has been repealed.
 - (2) EVAD. A conservation agreement for the enhanced district shall be deemed automatically renewed for an additional term of three years in perpetuity, unless either the Advisory Board or the landowner gives written notice to the contrary prior to the termination date of the conservation agreement term.

- (c) Revocation.
 - (1) VAD. By providing 30 days' advance written notice to the Advisory Board, a majority percent of landowners of qualifying farmland within a VAD may revoke the conservation agreement or the Advisory Board may revoke the same conservation agreement based on noncompliance by the landowner, subject to the same provisions as contained in subsection Article VI(a) for appeal of denials. Such revocation shall result in loss of qualifying farm status and loss of eligibility to participate in a VAD. Absent noncompliance by the landowner, neither the Advisory Board nor the Board of Commissioners shall revoke any conservation agreement prior to its expiration. If the Advisory Board shall revoke the conservation agreement for cause, the landowner shall have the appeal rights set forth in subsection Article VI(a).

- (2) EVAD. Conservation agreements for land within enhanced districts are irrevocable for a period of ten years. Enforcement of the terms of the conservation agreement may be through an action for injunctive relief and/or damages in the General Courts of Justice for Wake County, North Carolina. The County may also terminate any benefits to the owner under this program either permanently or during the period of violation, as appropriate. If the Advisory Board shall revoke the conservation agreement for cause, the landowner shall have the appeal rights set forth in subsection Article VI(a). The right to terminate program benefits is in addition to any legal rights that the County may have under either this Article or the terms of the applicable conservation agreement. The County may seek costs of the action including reasonable attorney fees if such a provision is incorporated into the conservation agreement. A notice of revocation shall be recorded with Wake County Register of Deeds sufficient to provide notice that the land has been withdrawn from the Enhanced Voluntary Agricultural District program.

ARTICLE VIII PUBLIC HEARINGS REGARDING CONDEMNATION

- (a) Purpose. Pursuant to G.S. 106-740, no state or local public agency or governmental unit may formally initiate any action to condemn any interest in qualifying farmland within a VAD or EVAD until such agency or unit has requested the Advisory Board to hold a public hearing on the proposed condemnation, this subsection provides for such hearings.

ARTICLE XVI BASELINE DOCUMENTATION AND MONITORING

- (a) Baseline documentation purpose. This policy establishes the procedure for the collection, compilation, and storage of baseline documentation for conservation easements managed by Wake County Soil and Water Conservation District. The Soil and Water Conservation District must have baseline documentation for all properties it protects. This information establishes the condition of a property at the time of acquisition, allowing comparisons with findings during subsequent monitoring events. Such information is also required by the IRS for landowners seeking a federal income tax deduction for conservation easement donations. The Soil and Water Conservation District, or their designee, will collect this information for the conservation easement donor. Baseline documentation is important in defending conservation properties from threats, including conservation easement violations. The baseline documentation may be relied upon during litigation to establish the condition of a property prior to a conservation easement violation. The Soil and Water Conservation District, or their designee, will collect and store all baseline documentation for conservation easements in a manner that maximizes effectiveness for enforcement purposes.

- (1) Baseline data collection. The volume and specificity of the information included in the baseline documentation report may vary depending on the terms of the easement and the conservation objectives for the property. It is the Soil and Water Conservation District's policy that baseline data will be collected by staff, or their designee.

Baseline data collected during a site visit will generally include:

- a. Boundary photos, photos of special features, and photos of structures and other improvements and or human modifications
 - b. Global Positioning System (GPS) data and locations on a map of each photo, special feature, structure, and other improvements;
 - c. Other natural resource information documenting the conservation values of the site such as soil maps, land cover data, natural community descriptions, ecological data, and other relevant agricultural or forestry information.
- (2) A copy of the baseline documentation report shall be kept on file with the easement grantee and must be reviewed by the landowner prior to closing.
- (b) Monitoring purpose. To protect conservation values and maintain safety on its fee simple properties, Soil and Water Conservation District or their designee will conduct regular monitoring and maintain detailed records of inspections, problems on the property and actions taken to address such problems.
- (1) Monitoring personnel. Overall supervision of monitoring is the responsibility of the grantee but will be coordinated with the Farmland Preservation Coordinator
 - (2) Monitoring procedure. Comprehensive monitoring shall be performed at least annually, with additional monitoring visits and reports to be generated as needed.

ARTICLE XVII FARMLAND PRESERVATION RANKING SYSTEM

The farmland preservation ranking system will be used to rank, or prioritize, applications received from landowners seeking sale or donation of their conservation easements. The system can be used for evaluating conversion impact. Site and soil assessment criteria shall be maintained by the Advisory Board. The advisory board is responsible for developing and adopting a system to rank and evaluate projects.

ARTICLE XVIII LEGAL PROVISIONS
