Interests & Experiences

Why are you interested in serving on a Board or Commission?

Whenever me and my neighbors walked around trails in Cary, we would ask each other questions like, 'I wonder who decides to put the crosswalk here,' or 'Why is this stream suddenly flagged for cleanup?' I realized there was a gap between the work the County does and the people who feel its impact. That's the role I want to play: a translator and a bridge. I'm interested in serving on a Board or Commission because I want to play a more active role in supporting and strengthening Wake County, especially when it comes to awareness about the local government, which not a lot of people seem to know about nor participate in. My time on the Health Board at UNC Charlotte taught me how to do that—how to take a student's frustration about clinic hours and turn it into a policy proposal that actually worked. I want to ensure my neighbors see local government not as a distant entity, but as a resource they helped shape by people that they know they can relate and discuss with.

Interests & Experiences

Why are you interested in serving on a Board or Commission?

To Members of the Commission: I remember my first swim lesson when I was about 4 years old in Optimist pool. I remember getting that big yellow Wake County Public Libraries card with the Cub Scouts in 4th grade. I remember how excited I was the first time I made it past the waitlist for an intro to pottery class at Sertoma. After growing up in Raleigh and attending NC State, I left to travel the world. I came back a few years later and after living a few other places, truly appreciated what a great place my parents had chosen to settle. When I moved back to the area as an adult, I chose where to live and later buy a home based on greenway access. Wake Public Schools and NC State provided a foundation that led to a doctorate and successful career. Over the last 20 years, I've been an educator and gotten to advise public officials from county commissioners to governors and senators in 17 states. I've also led policy think tanks and advised CEOs on tech policy. While that professional experience with public policy is important it can feel removed from direct impact on my community. Most importantly, as someone who grew up in Raleigh and now built my adult life here, I understand both our challenges and what makes us unique. I've seen the area grow from a sleepy suburban commuter town to the No.1 best performing large metro for tech and growth. I want to continue to invest in the things that make Wake a great and distinct place to live, and still continue to welcome new members of our community. As an adult, I appreciate how important the public services threaded through my life here are. The quality of life and community built in Wake don't happen by chance but by deliberate choices that build and attract a strong workforce. I now seek the opportunity to not just give back but help chart a path forward that builds on the shared values that made us all want to live here. I want to help find balanced solutions that preserve the quality of life that make this a place so many people want to live and continue to expand economic opportunities. I believe serving on advisory committees for Planning and/or Open Spaces and Parks is a new opportunity for me to not just offer my experience but learn even more about our incredible community. Thank you for your consideration, -Daniel Gilligan, PhD

Work Experience

I have public policy experience advising public officials from local to federal level and helping tech companies navigate complex regulatory environments over the last 20 years. As a educator I have taught courses on public policy and international studies. While I have done work in 17 states, the bulk of it has been here in my home of North Carolina. I'd love to leverage that variety of experience to meet the complex challenges our region faces - finding common ground solutions that preserve what makes this a thriving place to live while still welcoming new members of our community.

Volunteer Experience

I've led two non-profits based in North Carolina focused on civic engagement. Most recently, I have volunteered helping sort, organize, and pack donations locally for our neighbors out west impacted by Hurricane Helene, and previously volunteered with the Salvation Army doing similar work with food distribution and holiday toy distribution.

Education

March 9, 2025

To Members of the Commission:

I remember my first swim lesson when I was about 4 years old in Optimist pool. I remember getting that big yellow Wake County Public Libraries card with the Cub Scouts in 4th grade. I remember how excited I was the first time I made it past the waitlist for an intro to pottery class at Sertoma. After growing up in Raleigh and attending NC State, I left to travel the world. I came back a few years later and after living a few other places, truly appreciated what a great place my parents had chosen to settle. When I moved back to the area as an adult, I chose where to live and later buy a home based on greenway access.

Wake Public Schools and NC State provided a foundation that led to a doctorate and successful career. Over the last 20 years, I've been an educator and gotten to advise public officials from county commissioners to governors and senators in 17 states. I've also led policy think tanks and advised CEOs on tech policy. While that professional experience with public policy is important it can feel removed from direct impact on my community. Most importantly, as someone who grew up in Raleigh and now built my adult life here, I understand both our challenges and what makes us unique. I've seen the area grow from a sleepy suburban commuter town to the No.1 best performing large metro for tech and growth. I want to continue to invest in the things that make Wake a great and distinct place to live, and still continue to welcome new members of our community.

As an adult, I appreciate how important the public services threaded through my life here are. The quality of life and community built in Wake don't happen by chance but by deliberate choices that build and attract a strong workforce. I now seek the opportunity to not just give back but help chart a path forward that builds on the shared values that made us all want to live here. I want to help find balanced solutions that preserve the quality of life that make this a place so many people want to live and continue to expand economic opportunities. I believe serving on advisory committees for Planning and/or Open Spaces and Parks is a new opportunity for me to not just offer my experience but learn even more about our incredible community.

Thank you for your consideration,
-Daniel Gilligan, PhD

Gary Hartong, PE, LEED AP, FACEC

BIO

Gary Hartong is President of The Wooten Company, a multi-disciplinary firm with six offices in the Carolinas, headquartered in Raleigh. Wooten provides civil engineering, geomatics and architectural services to public entities, educational institutions, and private industry. A staunch advocate for infrastructure at every level, Gary was elected in January 2021 to Vice Chair of the American Council of Engineering Companies (ACEC) and in March 2023 he was elected to ACEC's College of Fellows. In his formative years, Gary learned from his grandfather about contemporary water disasters and – wanting to guard against them – decided to pursue an Environmental Engineering degree. After earning one from N.C. State, he continued there to complete his Master of Civil Engineering. Gary and his Wife Jess have four daughters and two dogs. As much as possible, they enjoy North Carolina's rivers, lakes, and beaches together.

RÉSUMÉ

Starting with Wooten as an intern, Gary ascended through the firm's ranks over two decades. He now forges a new era of service and growth across the Carolinas and beyond.

Interests & Experiences

Why are you interested in serving on a Board or Commission?

My wife and I have settled in Raleigh and now that we just got married, we are looking to become more involved in the greater Raleigh area. We both are local government people, I work for the State and my wife works for the City of Raleigh, and we are just looking to get on the ground and do more for our community. Little decisions make a big difference in the daily lives of people, and I would like to join a commission or board in order to make the City and County a better place.

Work Experience

Before I went to law school I had varied experience, primarily working as a copyeditor for a science journal, but also working part-time for the Carrboro Parks and Rec Department, where I helped out with parades, events, and mostly youth sports as a referee and an umpire. I also worked with Theatre Delta and traveled to many colleges and high schools to spread awareness of underage drinking and bystander intervention. In law school, I focused my experiences in local government: While interning with a policy organization, I researched intensively managed retreat and a local government ordinance passed to assist homeowners facing rising seawaters; I interned with the Town of Cary, and worked on several local issues there; and I worked briefly in transactional law both in and after law school, where I learned more about affordable housing transactions and local government's role in those transactions (and also that I do not belong in a transactional private practice). As a Judicial Fellow, I assist trial judges throughout North Carolina on research questions and resolving litigation disputes, and my work in this role has been lauded by many of the judges I have served.

Volunteer Experience

Besides my paid work with the Town of Carrboro as a referee/umpire and with Theatre Delta as an educator, I have volunteered briefly with the Land Loss Prevention Project and worked to develop a memo for local farmers on LLC formation. In law school, I volunteered as the president of Student Legal Services, and provided undergraduate students with legal information to help them make decisions on disciplinary or minor legal issues they would be facing.
