Kitty Thomas
Capital Projects Manager
Town of Morrisville - Engineering
260 Town Hall Drive, Suite C
Morrisville, NC 27560

Subject: Town of Morrisville Sorrell Grove Church Road Sidewalk

Dear Mr. Thomas,

Wake County has reviewed plans for the above referenced project, dated March 10, 2026. This review evaluated the proposed impacts to Sorrell's Grove Reservoir (Site 1) in accordance with the Wake County Crabtree Creek Watershed Project Policy. It has been determined that the submitted plans show no impact to the Wake County Flood Control Structure or Wake County Watershed/Flood Easement, and no additional review is required at this time.

However, any future plan revisions that may impact the County property or Flood Control Structure must be resubmitted to Wake County for review. Though the plans have been approved, it is our understanding the Town still needs to acquire a sidewalk easement on the County property. Town staff should continue to coordinate with Ricky Campbell in Facilities Design and Construction. Wake County's conveyance of the sidewalk easement to the Town

would require Board of Commissioner approval. The sidewalk easement must be recorded at the Wake County Register of Deeds prior to commencing any work on County property.

Please feel free to reach out to me if you have any questions about the project or the County's Watershed Policy.

Sincerely,

A handwritten signature in blue ink that reads "Mark Hamlett". The signature is written in a cursive style with a long horizontal stroke at the end.

Mark Hamlett, PE
Deputy Director
Wake County General Services Administration
