ENG 210-12: NRCS Acceptance of CLH's Responses for Town of Morrisville  
Crabtree Creek Nature Park Proposal in Crabtree Creek Site 23 (NC04952) Flood  
Pool

Dear Mr. Hamlett,

NRCS has reviewed CLH design, p.a. responses addressing NRCS' concerns (i.e. NRCS letter sent 04/26/23 via email) with the design proposal and documentation for the Town of Morrisville Crabtree Creek nature park proposal in Crabtree Creek site 23 (NC04952) flood pool.

NRCS concurs with and accepts 1) the updated No Net Loss Certification provided by Steven J. Miller with CLH design, p.a., and 2) all the responses from CLH's 06/09/23 letter to Wake County.

If you have questions pertaining to the information in this letter, please contact Jim Kjelgaard, state conservation engineer, at (919) 873-2130 or email [jim.kjelgaard@usda.gov](mailto:jim.kjelgaard@usda.gov). NRCS appreciates the efforts of Wake County and our partners in maintaining and operating the Crabtree Creek flood control structures.

Thank you,

James F. Kjelgaard  
State Conservation Engineer
