Matthew Price, A+, MCP, AMM
Court
919-614-6288
NC 27526
admyank@gmail.com

5917 Waterworn
Fuquay Varina,

Employment: Wake Technical Community College OnSite - Raleigh, NC
Adjunct Instructor Business and Technology January
2020-Present

Teaching Client Security, HIPAA, and PIA Compliance, Website and PC Security, Business Impacts & Liabilities, Data backups and breach reporting requirements for Small Businesses.

National Charter Academy Apex, NC
Technology Coordinator September 2022 - December 2022
Coordinate all technologies in the school, laptops, desktops, Chromebook projectors, asset management and plan for re-deployment and repairs of all technology equipment. Remote preloading of systems, and active directory joining and Group policy changes. Substitute teach for Technology Teacher teaching all Google, Google Drive, and other aspects of the technology program. Teaching practical technologies and how Science and Technology complement each other.

Self Employed
System Engineer

Hybrid - Fuquay Varina, NC
April 2018 - Present

Working with Real Estate and Auction companies on integration of Windows Server 2016 & 2019, Active Directory & Group Policy, Printer Setup, Installation, Laptop & Desktop, Cloud based automated data backup for unstructured data, automated purging of documents according to state laws using Powershell, Command Batch Processing, .

Liggett Vector Brands (TekSystems, Inc.) OnSite - Morrisville, NC

Sr. Systems Administrator July 17, 2017 - November 2017
Build Servers, Streamline Laptop and Desktop Install Process via WSUS, scripting (PowerShell, command line, Wilson Windowware Winbatch), Netwrix Sarbanes Oxley Reporting software, DB2 performance tuning, Windows Upgrades from Windows XP to Windows 10 LTSB, Cisco AMP. Mitigated installation and configuration issues, and made changes to deployment to move installation from over an hour to having a laptop ready to go in less than 30 minutes (installing drivers and software on server to automatically install on PXE, and automatically register with the Antivirus and AD for further configuration)

University of North Carolina, SOD Onsite - Chapel Hill, NC
Systems Administrator, Migrations January 24, 2017 - July 17, 2017

Migration Windows Server from Windows 2003 to 2019, Upgrading of Print Servers, Active Directory and Group Policy Administration, upgrade of Windows Deployment methods from system imaging using bootable USB keys to Windows RIP services, tweaking installations for quicker deployments, mitigating and consolidating unstructured user data to upgraded servers, Domain Migration from UNC to UNC Hospitals Domain. Migrated servers for Oporatories, containing over 10,000 printers though standardization of drivers and pushing updates to systems during upgrade windows.

Catepillar, Inc (TekSystems, Inc.) Onsite - Clayton, NC
Cloud Systems Administrator January 20, 2015 - December 2016

Setup, install, and execute the migration of the unstructured data from NetApp Servers to on premises cloud solutions utilizing Panzura and Nasuni with Cleversafe (IBM) back ends going from an entire server room of 72Gb racks of drives to a single head with 8 SSD drives, and a bank of eighteen 32TB drives. This eliminated tape backups, and external SAN drives and shared data in a DR system in three locations. Ensured that AWS firewall ports were continued to be active, and all ports for the CloudFS were also open bi-directionally for access.

Attain, LLC (TekSystems, Inc.)

Onsite - RTP, NC

SA, Migrations & Project Management May 20, 2014 - Dec 2014

Project Management for 190 Servers to be migrated from Windows 2000 Server and Windows 2003 Server to Windows 2012 Server code. Was part of the team that lead the upgrades. Project was given 6 months to migrate systems, and completed the project in less than 4. Utilized Standard Server Templates (VM Ware), Physical to Virtual VM Ware Technologies and conversion tools, database upgrade tools, and other scripted tools to migrate servers. Converted server with over 1,200 printers on the system with various and conflicting print drivers. Testing procedures of snapshot, move snapshot to testing environment, upgrading or building new, and then cutting tickets to upgrade server by moving new server over, and turning down old. When no complaints were logged, the old server was archived to tape.

CDI, Inc. Remote - RTP/Home
Application Subject Matter Expert/PM January 2011-April 2014

IBM Systems Director Subject Matter Expert - installed Windows server code, and IBM Systems Director, tuned Java, and made code changes for the available environment. Performed P2V migrations of servers to place them on the new platforms, and moved from Redhat to SCO Unix OS. IBM Systems Director monitored upwards to 10,000 endpoints for errors, security patches, and hardware failures and monitored SMART devices for errors, and printers for hardware and firmware code upgrades. Scheduled upgrades and deployments via server, some requiring FTP and firewall configuration and validation.

International Business Machines (CTG) Onsite - RTP, NC
Systems Administrator & Project Manager April 1994 to October 2008

OS/2, Windows, Disk Imaging, Project Management, Moves, Security Focal Point for Division of 3,000 individual machines and 12,000 physical servers, migration to Virtual Machines. Operating System, Server Information Security Focal and Asset Management.
