Enbridge Gas North Carolina (EGNC) will be installing a new natural gas line and above-ground interconnect facilities on and across Wake County property to facilitate the injection of renewable natural gas (RNG) produced by the South Wake Landfill into EGNCs existing natural gas system. This project was initiated by Archaea Energy in partnership with the landfill, with whom EGNC has an executed interconnect agreement for the construction of all facilities required to accept the RNG. Archaea currently projects being ready to produce RNG by the end of October 2025. The RNG interconnect will originate on a pad adjacent to Archaea Energy's RNG production facilities, then the pipeline will traverse southeast across Wake County owned landfill property until it reaches the public right-of-way of Bennet Knoll Pkwy thus leaving Wake County owned property. Tree clearing is required for this installation and has been permitted for as part of EGNCs approved erosion and sediment control plan.

To complete this project, EGNC will need easement (permanent, temporary and access) from Wake County. Given that this project was initiated by and for the benefit of the County owned landfill, it is understood that these easements are to be dedicated without compensation by EGNC.

Enclosed is the easement document, Exhibits, and relevant pages from our construction plans that show the easement and pipeline as it traverses the landfill property. Note that there is a point where we cross Duke Energy owned property (between two Wake County owned parcels 0740402618 & 0740605700). We are coordinating with Duke Energy on the acquisition of that easement. Below are the square footage totals for each easement type by PIN.

Please return the executed original document to me at the address above. You may reach me at 919-268-2195 should you have any questions.

PIN 0740402618
Permanent Access Easement: 53,926 SQ FT
Permanent Easement:
Temporary Easement:

PIN 0740605700
Permanent Access Easement: 33,342 SQ FT
Permanent Easement: 78,063 SQ FT
Temporary Easement: 22,985 SQ FT

PIN0740437240

Permanent Access Easement: 49,100 SQ FT

Sincerely,

A handwritten signature in black ink, appearing to read "Rhonda E. Lemon". The signature is fluid and cursive, with the first name "Rhonda" being more prominent.
