Other Comments: As I have moved throughout my collegiate experience, I have truly gained a plethora of experience, opportunity, and time to find my purpose and I see that possibility for anyone! As I have dedicated my time here at NC State, service was a huge turning point to my journey. Service, in my heart comes down to primarily education, diversity, service, and community. I love helping others reach their goals and even help lay out how they can make a positive impact in the world. As a result I myself want to proactively engage in our local government to help create better opportunities and help through various ways whether for our youth, women, planning, libraries, workforce, and/or research. My background in political science and my work and volunteer experience has truly opened my eyes to many areas that can use improvement in wake county and I would like to use my skills and passion to help make a difference. I have experience in working with students, research, policy analysis, project/program design, leadership development, and budgeting all to which can positively contribute to a board in wake county. Lastly, I have a strong focus in the youth and education and would love the opportunity to be placed on the Juvenile Crime Prevention Council.
