Board of Commissioners Growth, Land Use and Environment Committee Meeting Agenda

Monday, February 13, 2017 – 10:00 am
Wake County Justice Center, Conference Room 2800

IV. Item Title: Groundwater Protection and Wells – Approach to Rules Review
Wilson Mize, REHS – Environmental Health Manager

Item Summary:

The Groundwater Protection and Wells program is preparing to revise Wake County's well regulations. The goal of the revision process will be to update county regulations to reflect current state regulations, re-examine compliance sampling requirements, and improve upon the rules to further protect public health. This presentation will provide an overview of the subject areas and outline the process for revising the rules.

In addition, recent and pending changes to state regulations are likely to impact implementation of the county's well program. The presentation will provide a preview of these regulations and discuss Wake County's participation in the development of the regulations at the state.

Attachment:

1. Groundwater Protection and Wells – Approach to Rules Review

V. Item Title: Water Partnership – Status update and Analysis of Priorities
Michael Orbon, P. E. – Water Quality Director

Item Summary:

This will be a collaborative discussion that includes an update on the status of the Wake County Water Partnership to include an analysis of its priorities.
