RE: East Region Fire District Realignment

We have reviewed the recent changes to the east region fire district maps between the Rolesville Rural FD and Wakette FD districts. You may move forward on the approval of these latest changes by the county commissioners. Please ensure when the new resolutions are completed that the proper district names, and not the fire department names, are used in the new resolutions. Once these new mapping changes are approved please forward me a copy of the signed executed resolutions.

Thank you.
