

Danny Lee  
Master Mechanic  
General Services Administration

Danny Lee started his career with Wake County in June 1988 as a Mechanic I. He was part of the initial team of the newly created Fleet Operations Division of General Services Administration (GSA). Before coming to Wake County, Danny had already become a skilled technician with over 12 years of experience in automotive diagnostics, repairs and overhauling transmissions. He also used his skills to help install emergency equipment for the Garner Fire Department, where he was a member.

During Danny's tenure at GSA, he advanced to a Vehicle Mechanic II position within 2 years. He then took the initiative to become the first ASE Certified Master Mechanic for Wake County. To achieve this certification, Danny had to successfully master eight different automotive modules. This led to his next promotion to a Master Mechanic in May 1998. Throughout his career, Danny was consistently entrusted by management with many challenging repairs and diagnostics. His coworkers would often go to him for assistance and advice. Danny has always taken extreme pride in his craft, recognizing his work on vehicles has an impact on the safety of county drivers. With his involvement, Fleet Operations has been nationally recognized each of the past 8 years as one of the "100 Best Fleets in America."

Danny is retiring with over 30 years of service. In retirement, Danny plans to spend time with his wife and daughter and possibly do a little fishing. He is also considering new ventures that would involve imparting his knowledge and experience with other vehicle technicians.

Please join me in congratulating Danny on his retirement.
