

Item Title: Women's Health Month Proclamation

Specific Action Requested:

That the Board of Commissioners proclaims the month of May 2019 as Women's Health Month.

Item Summary:

May 12-18 is National Women's Health Week. One of the responsibilities that the Board of Commissioners gave to the Board appointed Wake County Commission for Women is to highlight the needs of women and the support that they need. The Women's Health Month Proclamation will raise awareness of the health concerns for women and their families. The health and well-being of women is tied to the health and well-being of babies, young people, families, and communities. Promoting women's health encourages women to take advantage of the many preventive health resources throughout the County. This is also an opportunity to highlight the partners who support women's health and well-being in Wake County.
