

**Janet “Jan” Burdick
Nurse
Human Services**

Jan Burdick has been employed with Wake County Human Service for over 28 years. She has served as a care coordinator for children from birth to age five. During her career with Wake County, she has continually worked in the Wake Forest or Northern Raleigh region and her work has had a positive impact on several generations.

Jan’s passion for bettering the lives of her clients is very evident. She has successfully ensured that many young children were enrolled into the Head Start and Pre-K programs that otherwise would have not happened. Clients continue to call her years later for resources and help.

Jan developed the “Creative Play” program at the Northern Regional Center. This program brings mothers and children together for reading and play strategies. This successful program has been going strong for over 15 years.

Jan resides in Wilson with her husband, cats and Labrador dogs. In retirement, she looks forward to spending time with her husband, three children and two grandchildren.

Please join me in congratulating Jan on her retirement.
