

Danny Bradley  
Trades Specialist  
General Services Administration (GSA)

Danny Bradley started his career with Wake County on September 14th, 1992 in a temporary Equipment Operator I position. A year later, he became a fulltime employee and was assigned to Landscape Maintenance Services in the Field Services Division. Danny provided landscape services at several facilities throughout Wake County. In this role, he also was involved with the former school park recycling and telephone book recycling programs.

Danny was promoted throughout his tenure, holding the positions of Equipment Operator I, Mechanic and Senior Equipment Operator. He is currently a Trades Specialist, who specializes in the hardscapes of the Downtown Business District. In this role he leads a team that is responsible for maintaining the cleanliness and overall appearance of Wake County's parking deck structures including the Wake County Public Parking Deck, Justice Center Deck, Courthouse Deck, Public Safety Center Decks, and the Wake County Detention Center Parking Deck.

Danny has been a hardworking and dedicated employee. Many of you arrive at work as Danny and his team are leaving the downtown area. His work day begins at 4am and he arrives much earlier after weekend downtown events, festivals and concerts. He has received many compliments over the years for performing his duties unselfishly, responsibly and with a sense of pride and ownership.

Danny will retire with 26 years of service. He plans to spend time with his family; working in the garden, and hunting. Danny will be greatly missed by his colleagues in GSA and throughout Wake County. We thank Danny for his faithful service to his customers and citizens of Wake County.

Please join in me congratulating Danny on his retirement.
