

Board of Commissioners Special Work Session Agenda

Monday, July 6, 2020 - 10:00 AM
Meeting Held Remotely

MEETING CALLED TO ORDER: Chairman Greg Ford

I. Conversation with the Sheriff

The Board of Commissioners and Wake County Sheriff Gerald Baker

Recent community conversations have focused on public safety reform. Sheriff Baker will provide an update on changes implemented in the department during his tenure and discuss opportunities and challenges ahead.

II. Community Organization Funding

Ben Canada, Assistant to the County Manager

The Adopted FY 2021 operating budget includes \$1.75 Million for the Community Organization Funding process. As part of the budget discussion, the Commissioners instructed staff to collect additional information from organizations. Then, the Commissioners individually completed an allocation exercise. In this special work session, staff will briefly recap the Board's discussion about this process and prior direction to staff. Then staff will present a "starting point" for the Board's discussion about allocations. The "starting point" is a composite of the seven individual worksheets that may reflect a possible consensus. The work session is the Board's designated time to discuss and allocate the funding as it desires.
