Interests & Experiences

Why are you interested in serving on a Board or Commission?

My current experience and work align with the mission of the Human Services Board. I have extensive experience in dental public health, health policy, and understand the health disparities faced by Wake county residents.

Work Experience

I have held both clinical and administrative positions in government structures such as with Indian Health Service, as well as in a Federally Qualified Health Center. Both my clinical and administrative career in public health and have focused supportive efforts surrounding oral health equity and access, policy reform, integrated practice, and collaborative partnership development to achieve systems-level changes for vulnerable population groups. Currently, I lead the North Carolina Oral Health Collaborative (NCOHC), a program of the Foundation for Health Leadership and Innovation (FHLI), where we work to help shape state public policy and practice through health promotion and literacy, policy advocacy, and effective coalition-building. Prior to joining FHLI, I served as Site Director for Indian Health Service (IHS) for the Sault Tribe of Chippewa Indians and led expansion efforts as Dental Director for a Federally Qualified Health Center (FQHC) in New Haven, Connecticut, working in partnership with Yale University. I currently hold adjunct faculty appointments at the University of North Carolina at Chapel Hill Adams School of Dentistry, the University of North Carolina Gillings School of Global Public Health, and North Central Michigan College.

Volunteer Experience

I hold the following committee appointments: -Dental Public Health Residency Advisory Committee - Dental Public Health Leadership Institute -Schweitzer Fellowship Interview Committee -National Rural Health Association Special Oral Health Initiative -Association of State and Territorial Health Officials (HRSA Maternal and Child Health Focus Group Member) -Curriculum Innovation Advisory Board Member (the University of North Carolina at Chapel Hill Adams School of Dentistry) I currently serve as a member of the Editorial Board with the Center for Disease Control's Preventing Chronic Disease journal. I serve as a peer reviewer for the Academy of General Dentistry's journal, General Dentistry

Education

B.S. Murray State University (KY) D.M.D. University of Louisville School of Dentistry (KY) M.H.A. Central Michigan University (MI)

Comments

I currently reside in Chatham County and work in Wake County (Cary)

EXPERIENCE

North Carolina Oral Health Collaborative

a program of the Foundation for Health Leadership and Innovation

November 2018-Current

Director providing programmatic oversight for the North Carolina Oral Health Collaborative (NCOHC), a nonprofit program focused on resolving systemic barriers to optimal oral health through collaborative partnerships, advocacy and policy, and education.

Management and Leadership:

Nonprofit administration, policy development, stakeholder engagement, capacity building, fundraising and grant writing, public outreach, and media relations. Management and appropriation of a multi-million-dollar budget.

Direct reports include: Program Coordinator, Content Marketing Specialist, WNC Program Specialist, Political Strategist (contract), and various other contract positions.

Education and Outreach:

Served as Faculty to WNC Children's Oral Health Collaborative, training dental professionals in Motivational Interviewing. Served as preceptor for Campbell University's MPH practicum. Led educational workshops on North Carolina oral health challenges and opportunities, integrated practice, teledentistry, oral health leadership development, and school-based oral health programming across diverse stakeholder groups. Guest lecturer with University of North Carolina at Chapel Hill Adams School of Dentistry and University of North Carolina Gillings School of Global Public Health.

Fair Haven Community Health Care

2017-November 2018

Dental Director with 13 direct reports focusing on management, interprofessional integration, and expansion of dental services for a Federally Qualified Health Center (FQHC) in partnership with Yale University.

Management and Leadership:

Provided clinical and administrative leadership in order to expand a program of primary and preventive dental care in a community health center setting, including five school-based sites. Supervised dental staff and represented employees to the VP of Clinical Affairs, and provided dental advice and counsel to the Executive Management Team and Board of Directors.

- Served as Chair of the Dental Department's Performance Improvement, Quality Improvement, and Peer Review Committees
- Designed, developed, and implemented appropriate Dental Department policies, protocols and procedures
- Prepared and managed a multi-million-dollar operating budget in conjunction with the Chief Financial Officer

- Led short and long-term program planning for expansion of clinical care sites
- Coordinated integration of the organization's dental services with other corporate programs, primarily behavioral and primary care services

Notable Accomplishments:

- Expanded service sites by 14%
- Increased revenue by >45%
- Decreased department AR by 22%
- Oversaw department expansion by 44%
- Provided groundwork for oral health-medical/systemic health integration
- Developed state-wide Dental Director Focus Group in partnership with the Community Health Center Association of Connecticut

MY COMMUNITY DENTAL CENTERS

May 2017 – September 2017

Provided direct clinical services encompassing all phases of general dentistry with a special emphasis in oral surgery through a non-profit, community-based organization based across Michigan.

This employment was on a part-time basis.

SAULT TRIBE OF CHIPPEWA INDIANS

January 2014-May 2017

Provided direct patient care for all phases of dentistry through Indian Health Service.

Procedures and skills: preventive, restorative, periodontal, surgical, fixed prosthodontics, removable prosthodontics, temporomandibular disorder management, and patient education services.

Management and Leadership:

Served as Site Dental Director with 6 direct reports.

- Directed and supervised dental team members on site
- Worked closely with medical staff to ensure a comprehensive and 360-degree approach to patient care
- Performed quarterly and annual budget goals and compliance data review
- Ensured clinical quality benchmarks were met
- Completed staff performance appraisals using a balanced scorecard approach

Additional Responsibilities:

- Secured site's accreditation via AAAHC
- Developed and implemented OSHA, operational and managerial policies and procedures
- Served as lead clinic manager providing leadership and administrative oversight to the medical, optometry, pharmacy, and nursing staff. This position was served in the absence of the full-time clinic manager.

RESEARCH

Biological Ecology (2006-2009)

Interests & Experiences

Why are you interested in serving on a Board or Commission?

I appreciate the services the county provides for me and my community and I feel blessed to live in Wake county. I would love to take time to give back to my community by sitting on a advisory panel or board. As a part of my current work, I reach out to pediatricians across the country to gain their input and it is invaluable at our organization. In the same way, I'd love to give back in this way.

Work Experience

I currently work as the Senior Research Program Manager at the American Board of Pediatrics, which certifies pediatricians across the country. My main research areas are 1) developmental evaluation of organizational programs, and 2) evaluating the US general pediatric and subspecialty workforce. Both of these efforts include organizing and working with stakeholder panels, survey development and analysis, and other evaluation techniques. In addition to these roles, I provide some support to help staff/manage our Foundation's Board of Directors and Research Advisory Committee. My prior work experience includes project management for a healthcare travel firm and IT consultation.

Volunteer Experience

I haven't had volunteer experience in recent years aside from leading a small group for my church for about 5-6 years. I haven't tried to do more than that until now, mostly due to being a season of life with small children. Prior experiences include working with children in need in Kenya over a period of 11 months.

Education

Masters in Public Health and Undergraduate in Biology, both from UNC-Chapel Hill.

Comments

Thank you for taking your time to review my submission.

Interests & Experiences

Why are you interested in serving on a Board or Commission?

John Myhre approached me about the opportunity to serve on the Human Services Board. He explained the mission and direction of the Board. I researched the Board and members and decided that I would like to be involved in the county where I live. I participated in the Pitt County Chamber of Commerce Leadership Institute and learned about how the various organizations and companies in that county worked together to help the citizens. So, when John talked with me, I felt like this was an extension of that earlier experience and seemed to fit with what I could do. I see that serving on the Human Services Board would allow me to use my background and education to help Wake county citizens by working with other board members to provide policy guidance in the prevention of disease, the promotion of public health, and social service programs. Additionally, we would be able to address any ad hoc issues requested of us.

Work Experience

I am a registered pharmacist in both Ohio and North Carolina. However, after working as a pharmacist in a community pharmacy for two years following graduation, I chose to extend my education and then pursued a career working at a drug company. While in graduate school I was both a teaching and research assistant. Upon graduation, I started my career with Burroughs Wellcome Co, in October of 1982 in the development area and mainly completed basic research to see if any of the company's medicines could be incorporated in a transdermal patch. With the first takeover by Glaxo in 1995, I moved to Cary (in 1997) and worked in the RTP Glaxo Wellcome facility as a scientist to develop new drug products. I also helped solve problems and did other supportive work in our department. With the second merger, to become Glaxo Smith Kline in 2001, I changed careers and worked in the regulatory group to liaise with the FDA to get GSK's drugs approved in the US. Later, in 2012, I also worked to get our drugs approved globally and to work to change registered details globally to allow for more efficient and effective manufacturing of our products. I retired in 2017, from GSK, after working 34 years. (Please note: You can see more detailed information about my work experience in the attached CV.)

Volunteer Experience

I have volunteered in all aspects of my life, by working at the Children's Miracle Network Telethon and the Public TV telethon. I have volunteered at my church. I was a volunteer Board member on the Welcome Federal Credit Union for 25 years, including being secretary, and President. I was a volunteer with the PTA at Lufkin Road Middle School as the VP of Programs and the Secretary. I was on the Athletic Board at Cary High School for 3 years. I was a Science Education volunteer at GSK to help students understand science and hopefully choose science as their career. This included attending the Sally Ride Festival in 2006. I also volunteered within my company for 15 years to facilitate and teach/train new employees about the drug discovery process at GSK . (Please note: A more complete listing of my volunteer activities is included on the attached CV.)

Education

pre-Pharmacy at Ohio University, Chillicothe, OH campus 1971-1972; Pharmacy at The Ohio State University, 1972-1976, B.S. in Pharmacy; Ph. D. in Pharmaceutical Sciences at the University of Kentucky, 1978-1982.

Comments

I feel it is important to give back to your community. You can do this by giving monetary support, giving of yourself (I am a lifetime blood donor helping others in a physical way, too) or by giving your time and expertise. It is easy to give money and somewhat easy to give blood; it is much harder to commit to giving your time and then using your knowledge and expertise to help solve problems to help guide those where we live, work, and play. I see this as a means for me to be involved in a way that will allow me to grow (learn about Wake County and the Human Services Board and those they serve), allow the Board to grow (learn from me when my input is needed), and hopefully make Wake County a better place for all people to live.

| Graduate Teaching Assistant | University of Kentucky Lexington, KY | 1978 – 1980 |
| Registered Pharmacist | Anderson's Drug Store Chillicothe, Ohio | 1976 - 1978 |

AFFILIATIONS

American Association of Pharmaceutical Scientists (Member 1986 to present)
Wake County Pharmaceutical Association (2000 to present)
Regulatory Affairs Professionals Society (2001 to 2007)
North Carolina Pharmaceutical Discussion Group (Member 1985 to 1999)

WORK EXPERIENCE

GlaxoSmithKline (2001 to 2017)

From 2012 to 2017, I worked in the Mature Products group to support the therapeutic area of Urology and Neurosciences. I supported the post approval global regulatory actions for various marketed products. I provided documentation for changes of registered details in global markets for an antidepressant product and the Chemistry, Manufacturing, and Controls (CMC) documentation for the NDA for China for the same product. I supported all activities for an anti-cholesterol product (for both the drug product and drug substance) and the transition of information for the divestment of a cancer drug to another company. I worked in Worthing, UK, for approximately six months to support the regulatory inspections at that site that allowed for continuing supply of drug substance and drug product to the US. I worked to transition drug substance registered detail to Drug Master Files (DMF's) for four drug substances to allow for transparency within and outside the company. I provided support for responses for the approval of the combination cancer product in Canada, meeting an aggressive timeline for agency approval to allow for government reimbursement. I supported the transition of the Bristol site (GSK manufacturing site of antibiotics) to Dr. Reddy's Laboratories (generic firm).

I also worked in the New Submissions Group North America in Global CMC Regulatory Affairs (2001-2012). I supported work on the New Drug Application (NDA) for a highly technical cancer product that was approved in the US in 2005, and then approved in Europe (MAA), Japan (JNDA), and Canada (NDS) in 2007. Additionally, I provided regulatory support for compounds for treatment of diabetes, pain, and cancer. I was also responsible for regulatory intelligence input, both internally, to staff, and externally, to the FDA. I volunteered as a facilitator in the GSK Experience course (orientation program for new employees). I supported teams charged with determining the feasibility of various opportunities to in-license three different products for GSK (none were approved to in-license).

Glaxo Wellcome Inc. (1995 to July 2001)

I worked in a Formulation Development Group in Pharmaceutical Sciences. I developed and evaluated solid drug products for new chemical entities for testing in human clinical trials. I was a project team leader for a compound being developed to treat obesity and prevent gallstones, for an oral suspension for the treatment of AIDS, and for an anticonvulsant compound. I researched and worked to develop a test method to overcome a problem in a soft gelatin capsule that did not dissolve in the stomach that was used to deliver product to treat prostate cancer. Also, I assisted in the development of a new training course in our department and served as a volunteer instructor for that course. I was also involved in training new company employees about the development process at Glaxo Wellcome and I participated in the Visiting Scientist Program co-sponsored by AAPS (American Association of Pharmaceutical Scientists). I supervised one to three employees.

Burroughs Wellcome Co. (1982 - 1995)

I worked in Physical Pharmacy Group in Pharmaceutical Research and Development Laboratories. I managed professional staff (one to three employees) to evaluate physicochemical properties of newly discovered drug substances to support formulation development, reformulation, and production of drug products. I was a Project Leader for development of an iontophoretic device for treatment of congestive heart failure, an antidepressant transdermal delivery system, and a stroke project. I was project representative for the development of anti-inflammatory, antitumor, antidepressant, antiviral, antihistamine, antismoking and other development compounds. I also developed and screened antihistamine, anti-nauseant, anti-thrombotic, anti-arthritic, antidepressant, anti-Parkinsonism, and anti-inflammatory compounds for the feasibility of transdermal delivery systems as company products. Additionally, I provided documentation for submission of various New Drug Applications (NDAs) of market extension products including antivirals, antidepressants, and AIDS drugs and new NDAs for an antiviral and a neuromuscular blocker. I chaired the North Carolina Pharmaceutical Discussion Group, participated in the Visiting Scientist Program (AAPS), and provided training to colleagues on SOPs.

PROFESSIONAL ACTIVITIES

Facilitator, The GSK Experience, 1999 - 2014
Trainer, Making CMC Teams Work, 2000 - 2003
Trainer, Pharmaceuticals, The Glaxo Wellcome Way, 1999 - 2002
Strategic Planning Chair, PT Section, AAPS, 1999 - 2002
Facilitator and Trainer, Molecule to Marketplace, Glaxo Wellcome Inc., 1997 - 2002
Publicity Chair, PT Section, AAPS, 1997
Moderator, Pharmaceutical Technology/Regulatory Affairs Symposium, "Regulatory Compliance and the Drug Development Scientist", AAPS Meeting, 1993
Member, Pharmaceutical Technology Planning Committee, AAPS, 1992 - 1993
Screener and/or Moderator for Paper/Poster Presentations at the AAPS Annual Meeting, 1992, 1993, 1995 – present
Past Chairperson (member of Executive Committee), North Carolina Pharmaceutical Discussion Group, 1991-1992
Chairperson, North Carolina Pharmaceutical Discussion Group, 1990 - 1991
Graduate, Pitt-Greenville Chamber of Commerce Leadership Institute, 1990
Vice Chairperson, North Carolina Pharmaceutical Discussion Group, 1989 - 90
Member, Visiting Scientist Program, 1987- 2001
Oregon State University, Corvallis, OR, 2001
University of Montana, Missoula, MT, 1999
University of Georgia, Athens, GA, 1999
University of Oklahoma, Oklahoma City, OK, 1998
Howard University, Washington, D. C. 1998
Mercer University, Atlanta, GA, 1997
University of Missouri - Kansas City, Kansas City, MO, 1996.
St. John's University, Jamaica, NY, 1992
University of South Carolina, Columbia, SC, 1991
Dalhousie University, Halifax, Nova Scotia, CANADA, 1987
South Dakota State University, Brookings, SD, 1987
Member, American Association of Pharmaceutical Scientists East Coast Membership Network Committee, 1986 - 1988
Assistant Chairperson, "Inhalation Aerosol Technology" Short Course, Academy of Pharmaceutical Sciences, 37th National Meeting, 1984
Member, Poster Session Committee, Academy of Pharmaceutical Sciences, 1984 – 1986

Interests & Experiences

Why are you interested in serving on a Board or Commission?

A lot of my life has been about serving others in some capacity. My work history, including my current startup that is centered around helping people plan for the inevitable, and my volunteer history will attest to that. As I get older and work every day to get a little bit wiser, I want to expand the role I play in the service to others. Good government, which we are fortunate to have in Wake County, requires citizens stepping forward to support the everyday government workers and elected officials that spend countless hours working to improve our lives. I believe I bring a strong skill set and I know I have the commitment required to be a valuable part of any board. I look forward to an opportunity to interview for a board and to talk more in-depth about how I help my local government.

Work Experience

See attached resume.

Volunteer Experience

-I currently volunteer with the Food Bank of Central and Eastern NC delivering food when they need drivers and normal bagging food. -With my son starting Elementary school this year, I am now the Wellness Chair on the PTA. -I mentor students at Queens University of Charlotte that are in their MBA program. -I will be a poll worker on Election Day for the first time this year. -Prior to Covid and something I will resume, I was volunteering at Annie Wilkerson Nature Preserve removing barbed wire that remains from the farm. -A long time ago I was a volunteer at Falls Volunteer Fire Department (which became a Wake Forest FD). -Even longer ago, I volunteered at for the Special Olympics when the World Games were here.

Education

See attached resume.
