Please submit your comments via the form below (500 words or less). The clerk will document your comments as part of the formal minutes.

Triangle Family Services has been part of Wake County solutions for families in crisis for 84 years. Our recent experience as a partner with Wake County and the H2H hotel further defined our comments today in regards to solutions needed as part of homelessness/engagement for Wake County. Longer term case and care management is essential for families remaining stable. There is a revolving door for getting families placed in housing. The challenge: without longer term case and care management our concern is our community will continue to move people in and out of a system of homelessness. While building affordable housing stock is critical- it is simply not THE one solution. In general Triangle Family Services supports the affordable housing action plan presented today with one caveat: PLEASE prioritize supportive services and consider additional funding and prioritizing of case and care management on a longer term basis as a solution for families already placed in affordable housing. Triangle Family Services, partnering with Wake County to help families in crisis for 84 years.
