The PLAN Wake document is a good start in addressing the underlying issues that face our county. It might not be perfect but it lays the groundwork on how our values will determine how we meet the challenges of affordable housing, climate change, public transportation, public healthy, and more. Let's pass this plan and get started!

Dear Wake County Commissioners:

Please consider the abstracts concerning the economic impact of subsidized stadiums produced by the St. Louis Federal Reserve Bank. These abstracts (you'll find them using a search engine) cite research and recommend scholarly books on the subject of publicly subsidized stadiums, rendering guidance which admonishes us to avoid subsidizing stadiums because they are proven drags on economic development and expansion.

Once you review the basic information

<https://research.stlouisfed.org/publications/employment-research/are-sports-stadiums-a-catalyst-for-economic-development>

and dig into some of the recommended resources it is requested you follow the recommendation now shared--vote against granting a TIG to support the Downtown South project as the TIG will subsidize stadium development.

We can do better.

Thank you for your time and consideration.

Sincerely,

Will Marks
