Re: Easement Request on Wake County Property
10505 Poole Road, Wendell NC Wake County
PIN # 1763841077

Duke Energy will be installing a new Overhead primary distribution line on Poole Road, Wendell NC to complete a feeder tie which will connect the lines from the southern part of Poole Road to the northern side in order to improve the system reliability in the area. Duke Energy will be extending the existing overhead distribution line from the existing pole 147Y10 on Wake County property to a new proposed pole on the adjacent property. No trees will be removed for this installation, although some side trimming will be necessary to allow for the 3 phase clearance.

In order to complete this project, Duke Energy will need an Easement from Wake County. Enclosed is the Easement document with an Exhibit A attached.

Please return the executed original document to me at the address above and you can reach me at 919-830-7395 should you have any questions.

Regards,

Carol S. Loyd
