Hi Nancy,

Just letting you know that next week will be my last week with Sound Rivers. I am leaving to work for a company that researches regenerative agriculture. I can be reached at msstarr@ncsu.edu. I am not relocating and will still be working on climate resiliency but centered around agriculture so feel free to reach out any time.

Matthew

Water Partnership Members,

We are looking forward to the meeting next Friday. We have a packed agenda. Chris Phelps, Water Division Manager for the City of Raleigh, will be presenting on the proposed Lead and Copper Rule updates. We will also be discussing the One Water scope. Given the increase in the Coronavirus Delta variant, we will again hold this meeting virtually using the WebEx format. Meeting materials are available at the following link:  [8/13 Meeting Material Folder](#). The folder includes the following information:

- 8/13 Meeting Agenda
- 6/11 Draft Meeting Minutes
- One Water Scope design proposal: Please take time to review and share with others in your organization (planners, utility managers, etc.) that may have interest in the One Water Plan.

Presentations associated with the meeting will be posted by Wednesday of next week. You should receive an email invite with login information to the WebEx meeting. WebEx details

are also included in the Meeting Material folder. If you have any trouble accessing materials and/or did not receive WebEx invite, please reach out and we will make sure you get the information you need.

Thanks and look forward to our meeting next Friday!

Nancy
